

HANG UP

design Andrea Lucatello - 2013

A touch of movement and irreverent modernity; an unusual game of perspectives is created, emphasised by the contrasting silhouettes.

The main characteristic of Hang up is the irregular positioning of the mirror. The structure at the back consists of a painted steel frame, while the mirror frame itself is available in lacquered wood (white, anthracite grey or matt quartz grey) or in solid ash-wood (whitened, painted walnut-wood or painted anthracite grey).
